Biography

Phyllis is the author of three books. Her latest work is *A Psychic Perspective, 10 Steps to More Love, Wealth and Personal Happiness*. She is best known as a radio psychic. She is the host of two radio talk shows entitled the *Common Sense Psychic*. She is a professional psychic entering her 30th year of private consultations.

Phyllis uses heightened awareness to help people overcome job loss, relationship challenges or divorce, addictions and other personal challenges. Beyond the difficulties of life, she helps people connect or reconnect to their power source, and build their self worth through validation. Her goal is always to help others see how and what they are creating in their lives.

Phyllis begins a reading telling people about the blueprint of their life; what they came to accomplish on the planet. Then she tells people where they are in the overall view of their life purpose. She gives a two year outlook in every area of a person's life. She does all of this by perceiving a person's patterns. She says, "I'm a very good listener. I listen to what is not being said, and I listen between the words. Those words have a consciousness and an energy pattern. I follow it with my awareness."

Phyllis considers psychic reading to be an honor and a privilege. She views it as sacred when people give her permission to look at their secrets and hopes, their flaws and their dreams, all with the purest hope of connecting more fully with the nature and essence of who they are. She has read thousands of people in 20 different countries

As a successful entrepreneur and spiritual teacher. Phyllis will tell you that its not about "*achieving*" "*acquiring*" or "*accomplishing*." She'll explain why its about allowing, permission and trust. "When you have those building blocks in place everything else, including prosperity, healthy relationships and love, just comes," states Phyllis. Phyllis lives in the San Francisco Bay area and regularly guest hosts the popular personal growth program, "Seeing Beyond" with Bonnie Colleen. She hosts her own radio shows entitled "The Common Sense Psychic" on [KTLK 1150 AM](http://www.KTLK1150AM.com) radio in Los Angeles, and an internet radio show on <http://www.CONTACTTALKRADIO.com> out of Seattle.

Phyllis' educational background is in Sociology. She has used her intuitive skills in the corporate world, the private sector, and in nonprofit work. She has held positions as Executive Director, Marketing Director, and Human Resource Manager. She currently acts as a consultant for corporations and individuals.

The way you described this job to me - it's amazing, but it's just as you described. This is just incredible to me. And you were right I feel sooooo much better about everything.

You are not just a friend, you are a godsend! When I met you I asked you if I was in "harms way". You told me I would have some "stuff" to deal with, but I would not be in jeopardy, not in a life threatening situation". I had a biopsy done on a tumor, the doctor was very surprised that it had shrunk since it had been discovered...it did not have enough tissue to be malignant. The doctor is confident I am completely fine. Thank you! Thank you! Thank you!

Press Release

FOR IMMEDIATE RELEASE

Common Sense Psychic Partners in Book with Wayne Dyer

SAN RAMON, CA September 30, 2009. San Francisco Bay Area Author, and Common Sense Psychic, Phyllis King, will release her third book September 15. **Bouncing Back, Thriving in Changing Times** is an anthology with contributions from Dr. Wayne Dyer and Brian Tracey. The new book is an inspirational treatise of personal stories in a spiritual context. Authors share how they have overcome challenges in their own life to find success. Audiences will agree that they've never heard "God talk" quite like this before.

What separates this book from most metaphysical publications is its down to earth, real world advice. According to psychotherapist, Donna Morrish, even skeptics will see the value in the advice offered in this work. In this book, Phyllis explains how one can even turn the act of sexual abuse into spiritual enlightenment.

“ Her story is inspiring, and shows a personal humility, although she is clearly a strong person with strong views. With no attempt to do so her work reveals a sensitivity and generosity that is undeniable.” says Jennifer Barton, President of Barton Communications.”

In addition to being a professional psychic for the past 30 years Phyllis has lived a very diverse life, which in her words "make her a better life coach." Those experiences include being a classically trained cellist, a professional pop singer, a marketing director for a record company, a human resource manager for a major fast food retailer, and a CEO for a non profit mental health agency. She may be psychic, but she uses common sense, and real life experience to help others achieve their own goals.

Phyllis is the host *The Common Sense Psychic* on KTLK 1150 AM in Los Angeles, and on the internet www.CONTACTTALKRADIO.com. She regularly guest hosts the personal growth radio program *Seeing Beyond* in San Francisco.
